

Project Design Phase

Proposed Solution Template

Date	01 October 2026
Team ID	SWTID-2026-2085
Project Name	Import data using transform maps(spreadsheet)
Maximum Marks	2 Marks

Proposed Solution Template:

The project team shall fill in the following information in the proposed solution template for the Import Data Using Transform Maps (Spreadsheet) functionality.

S.No.	Parameter	Description
1	Problem Statement (Problem to be solved)	Manual spreadsheet data loading causes mapping errors, duplicates, and inconsistent data.
2	Idea / Solution Description	Import spreadsheet data into a staging table and use a Transform Map to map, validate, and load it into the target table.
3	Novelty / Uniqueness	A reusable, configurable import process with validation and error logging, needing no custom code per load.
4	Business Impact / User Satisfaction	Reduces manual effort and errors, and gives users fast, accurate data loads with clear results.
5	Business Model / Value Proposition	Saves time and cost by automating bulk data loads and reducing rework.
6	Scalability of the Solution	Easily reused for other tables and spreadsheets, and can extend to scheduled imports.
